## PRESS RELEASE

# Elegance in dark orchid – Alox Limited Edition 2016

**Supreme elegance in 2016 – the *Alox Limited Edition 2016* release from Victorinox features three of the most popular pocket knife models in the Alox range with scales in this exciting new color.**

Adding a touch of color to everyday life is simplicity itself. In response to a number of customer requests, the family-run Swiss company Victorinox is releasing limited runs of its most reliable and popular models for the second time – the scales of the Classic, Cadet and Pioneer come in an exclusive, striking Alox dark orchid for the *Alox Limited Edition 2016*.

The *Alox Limited Edition 2016* marks the next chapter in an exciting story. These three Alox models are set to be produced in an ever-increasing range of new colors. Each new edition will only be available for one year – with the relevant year engraved on the back of the pocket knife. A certificate will also be supplied with each model.

**Background:** Up till now, most Victorinox Alox models have come with silver anodized scales. These are punched from aluminum and embossed with a ribbed pattern. The Eloxal process is then used to create a resilient and abrasion-resistant oxide layer to provide extra protection against damage and corrosion. This layer, coupled with particularly strong rivet joints to hold the tool together, gives Victorinox Alox models an exceptionally robust design. Then there's the tried-and-tested mechanism and the unbeatable production quality of these Swiss-made knives. The result is a series of virtually indestructible pocket knives. This explains why Alox knives have gained such a dedicated fan base – in the truest sense of the word.

Models produced in different colors as part of rare limited releases have become prized collector's items. And that is why there's been a riot of color since 2015!

## **Elegant and equipped for everyone and everything – the *Alox Limited Edition 2016***

At a length of just 58 millimeters, the *Alox Classic Limited Edition 2016* features a blade, a nail file, a screwdriver, scissors and a key ring, and thus makes an ideal companion for everyday use – elegant and robust.

The *Cadet Alox Limited Edition 2016*, at a compact length of 84 millimeters, is the “gentleman” of the Alox range – it features a nail file including a nail cleaner, along with a versatile, highly stable blade and other useful tools such as a bottle opener and a can opener.

The *Pioneer Alox Limited Edition 2016* is an exceptionally reliable tool that you can count on wherever you go. The 93-millimeter model includes a blade, a reamer/punch, a can opener (with small screwdriver), a bottle opener (with large screwdriver and wire stripper) and a key ring.

## **About Victorinox**

Victorinox produces and sells unique, high-quality products for practical use in all aspects of life – from “Swiss Army knives” and household and professional cutlery to timepieces, travel gear, apparel and fragrances. The company is based in Ibach, Schwyz, in the heart of Switzerland. This is where Karl Elsener founded his knifsmith’s workshop in 1884, developing the “Original Swiss Army Knife” just a few years later.
