

VICTORINOX

Synthetic Belt Holder for SwissTools

Accessories

available: as of March 19th 2018

PERFECT FOR THE MOST DEMANDING REQUIREMENTS

This new synthetic belt holder is suitable for all SwissTool models. The holder is convincing with its robust fabrication and elegant design. This synthetic material is also used for the tracks on large snow-grooming vehicles and is therefore extremely robust. Thus, this holder is ideal for all those who have very high expectations and also prefer the best quality in their tools.

The SwissTool can be worn open or closed on a belt. With the perfect synthetic-spring safety catch as well as the optimum fit of the open SwissTool in the opening, it is always immediately ready to hold and use. Should the synthetic belt case become soiled from dirt and dust, simply hold it under a water faucet and rinse off the grime. Thus you are always ready for the next challenge.
