

VICTORINOX

## ONYX BLACK COLLECTION MONOCHROME BEAUTY

The directional Onyx Black collection is sleek, bold and timelessly alluring. Each knife is treated with the polispectral process, where a layer of chromium oxide is applied to stainless steel, to produce a monochrome finish on all functions. Rather than using lacquer or pigment, color is achieved according to the amount of light passing through the translucent layer. The result: a smooth, glossy black tone that brings durability, charisma and depth to an already essential tool. This range is perfect for the discerning customer who wants exceptional performance and likes a classy, monochrome aesthetic.

- All elements in a sleek black color
- Multifunctional knives, with polispectral finish
- Scratch and fade-resistant durable finish

Available: as of 28th September 2020
